GENERAL OVERVIEW OF THE COURSE

INTRODUCTION

The course guideline is provided in order to assist students in understanding the content and the requirements of the course. Students are advised to read and refer carefully to the course guidelines to enable them to complete the course successfully.

The ECN3123 Language Testing for Primary School course was developed with the aim to provide exposure and knowledge to students in the various major components of the English language testing which teachers may use in assessing primary school pupils' English language performance in different language areas. Therefore, this course would enable the English language teachers to gain better understanding of the English language testing components and how to use these testing instruments appropriately. Such knowledge and understanding may assist the teachers in enhancing their competency when selecting and preparing language testing instruments. The input acquired from this course may also contribute in their professional development and lifelong learning.

TARGET GROUP

This course is offered to all students in the Teaching of English as a Second Language (TESL) undergraduate program for primary schools in Malaysia.

ALLOCATION OF STUDENT LEARNING TIME

According to the MQA standard, each credit hour requires 40 hours of learning time on the students' part. Hence, for this course students are required to spend 120 hours of learning time. The estimate learning time for ECN3123 course is shown in Table 1.
