ABSTRAK

The declining situation in the family institution often related to the misunderstanding among married couples. However, it is rather a baseless assumption as research has shown that 70% of married couples know understand and like each other. The outcome of a research among the participants of pre marital course carried out at Zura's Academy, proves that inadequacy in religion knowledge is the main contribution to family problem. Hence, the pre marital course is undoubtedly should be put into consideration. This is because, the course participants will not only benefit theoretically but also practical knowledge which they could apply in their life as husband and wife in future. In the research entitled Relevance’s and effectiveness of pre marital courses, the writer discussed the meaning of marriage through the Islamic perspective. In addition, the researches also highlight the importance of couples to attend the course. A few samples have been chose to get their responds. Last but not least, the research means to assess the effectiveness of the course as a case of family dispute is still beyond control.

CHAPTER I

INTRODUCTION

1.1 Marriage Course Background

Pre Marriage Course is a course that is compulsory to every Malaysian citizen that are Muslim and have the desire to have a family. This course is conducted according to the Pre Islamic Marriage Joint Venture Course (MBKPPI). This course was introduced in 1997 and has been updated from time to time, and the existence founder has been kept under the name of Head Director of the Malaysian Islamic Advancement (JAKIM).

The Pre Islamic Marriage Joint Venture course module is a reference and guide for the Islamic State Board and companies or organizer that has prepared the pre marriage course in the several states without any changes made.

The actual condition of the marriage that has been set by the Islamic State Board is marriage ceremonial test, which is performed to test the couple’s knowledge, and to what extent of responsibility they have as Muslims, and as husband and wife. This course was considered difficult and a burden to couples.

Nowadays there are increasing problems in marriages caused by insufficient understanding of being husband and wife. At times the marriage age do not even reach a year, the castle built from love starts shaking like being hit by wind. Hence due to that, a lot of religious classes has been conducted purposely to give guidance and conscience to the people about the importance of religious studies. For the couples who want to build a family will be advised to attend the marriage course that is set up by the Islamic State Board or any private classes which are recognized.
The exposure of how to live as a family is important, because this will give a better understanding to a lot of couples who now have started to understand how important it was to have attend the marriage course.

Other than fulfilling the conditions before marriage, having knowledge at least will help a couple as soon as they are pronounced husband and wife.

Normally, when we mention about society marriages publicly we imagine a more crooked lifestyle, which leads only to the enjoyment of sex. In order to change this wrong perception, marriage courses are introduced to explain the role of husband and wife, according to the Islamic trail.

From the Islamic point of view, marriage is like an unbreakable bond between a man and a woman, with the accepted marriage ceremonial to live as a family. In Islam marriage is performed as a reason to expand the next generation in a *halal* way, as to continue the bloodline and for peace in the world ad the world after.

Allah said in al-Quran:

\[
\text{يَتَأْتِيهَا أَلْلَهُ وَتُقِيمُنَّ الْمَّلَأِيَّةَ وَتَحْيَّنَّ الْمُتَّقِينَ}
\]

\[
\text{وَأَتِمَّوْا الْهَدَىَّ وَأَلْقِنَّ فِي بَيْتِهِمْ وَلَدَيْنَ سَلَامًا وَاِلْأَرْحَامُ إِنَّ الْلَّهَ كَانَ عَلَيْكُمْ رَقِيبًا}
\]
O Mankind! Fear your guardian lord who created you from a single person created out of it his mate and from them twain scattered (like seeds) countless men and woman fear Allah through whom ye demand your mutual (right) and be heedful of the wombs (that bore you) for Allah ever watches over you. (An: Nisa’ 4:1)¹

Marriage is also like a form of religious act and is the Sunnah from Rasulullah, which is the fulfillment towards the human fitrah. The people who are married can arrange their lives in goodness, perfection and full responsibility. The people who are married hold full responsibility towards their family and family members.

Allah will give a reward to all behave that mean to give happiness and prosperous in the family. It is also a way to solve a social problem in our society, create solidarity in Muslim society and born a deront generation.

Rasulullah S.A.W has said:

عن أنس رضي الله عنه قال: قال النبي صلى الله عليه وسلم: النكاح سننٍ فمن رغب عن سنن فلا يفسد مني

From Anas R.A has said: Muhammad S.A.W has said marriage was my sunnah, whoever hate my sunnah them are not my group.

Marriage was a hard responsibility to all individual. Every couple who want a happiness need to know what a marriage suppose to. Without a clear vision, there is no way to built a better life and destruction is the result. It is because, by marriage, human will expand

and a relation will tie between two families. Islam itself has ruled a character that should husband and wife see that is its wealthy, descent, beauty and religions.

1.2 Problem Statement

In Malaysia, there are hundreds of company or private sector licensed by Islamic Religion Department have been took part in handling pre marriage courses. It is belief that their objective and goal are to give opportunity and guidance to those couples about the real scenario of marriage. However, the question here is that why there are still the family problems among our society even have the pre marital course. This is one of the reasons why the writer chooses this topic.

1.3 Aims of Research

The purpose of this research is to know the role from some of the institution course center in the side to give guidelines and education to participants of Pre-marital course before they enter into household world. Nowadays, many social problems source from the couple, husband and wife. Here, writer interest to do research and observation about the effectiveness of Pre-marital courses in our society. Besides that, writer also have opportunity to interview with some of the participants of the course to know their opinion about the course.

1.4 Objective research

1. To know how important is pre marriage among the society.
2. To assess an opinion among pre marriage participants about the effectiveness of course implemented.
3. To search for the cause contribute towards family problem or marriage dysfunctional.
1.5 Research Question

1. Why is that pre marriage course compulsory to all couple before getting marriage?
2. Is it need pre marriage course to be implement in our society?
3. How far is the effectiveness of pre marriage course from Zura’s Academy participant point of view?

1.6 Definition Concept

Zura’s Academy

Zura’s Academy is an institution that registered under Education Act 1961, (Ministry Of Malaysian Education). Zura’s Academy was also acknowledged and licensed by JAKIM to conduct the pre marriage and Islamic Marriage courses. After about thirteen years experienced, Zura’s Academy was certificated to handle pre marriage courses using Pre Islamic Marriage Joint Venture Course (MBKPPI).

The Root of Module MBKPPI

First module: This module contains about Islamic Akidah, where it talks about Islam, Iman, ehsan and the main principal of the teaching of Islam, the role of akidah and the things that can ruin the akidah.

Second module: This module talks about the marriage title procedure to the Islamic family laws, which concentrates to the marriage procedure, divorce and mistake and also the penalty according to the Islamic family law.

Third module: This module is the relationship in a family that explains about the sexual relation between husband and wife, relation with family member and relation with in-law.
Marriage

From the view of language:
Is the gathering or togetherness.

From the view of Fiqh:
A bond which occurs due to a lawful tie that uses words between the man and woman to allow the togetherness of them and bid sexual intimacy which illegal before marriage.

There is also another meaning that explains the meaning of marriage from a language point of view. The meaning of marriage from the language view means:

"الزواج، الضم، وافتران"

As Allah says:

\[ كُلْ ذَلِكَ وَرَأَى جَنَّاهُم بِحُورٍ عَيْنٍ \]

So and we shall wed them to maidens with beautiful, big and lustrous eyes. (Ad-Dhukhan, 44:54) (Mohamed Ra’fat Othman, 1984:10)

Whereas in the syarak meaning of marriage can be taken from Imam Syafie and Imam Malik.

Imam Syafie: The Nikah is like allowing sexual intimacy between partners after saying the nikah or tazwij. (Abdul Rahman Al-Jaziri, 1969: 1)

Imam Malik: this is like an ownership which brings blessing to get a child that is halal. (Ibid: 3)
American Encyclopedia under the title “marriage” defines marriage as the human personality and from the law view is:

“.... Marriage is union between man and women living in complete community at life for the establishment of a family” (The Encyclopedia America, Vol 18: 311).

**Burdisi:**

Marriage: is one *aqad* that gives profit to the men with the purpose for enjoyment (*Jima’*) that is forbidden by Islam. (Al- Burdisi: 18).

**1.7 Important Of Research**

In Malaysia there were many centers that organize a marriage course whether under state Islam department or recognize by private company. It is not denying that, objective and the aim of this center is to give an expose and guide to all couple about the reality of marriage. The question is, in fact there was many center of marriage course, we still see and hear a problem in the marriage and social symptom that involving a household family like progeny and divorce cases widely spread in our society nowadays. What is wrong? Is that because the lesson that teach by the centers is not well absorb and ineffective or because of an individual itself, who do not want to practice all the lessons that been teach in real life after being husband and wife. These problems were about to be study and analyze by writer in scientific project that titled marriage course it is relevant and effectiveness.
CHAPTER II

LITERATURE REVIEW

2.1 Definition of Pre Marital Course

Marriage course

According to the opinion in the Umni magazine an officer at the Islamic Board explaining ever since the board conducted the marriage course the average people who have failed the marriage interview, due to failing to answer the fardh questions lessened. This matter can smooth the marriage process. (Majalah Umni, Sept.1992, hlmn 16).

For a while a lot of the couples that are still blinded and searching where are the right place to get counseling. Especially to couples who want to build a family. Thinking the importance of having knowledge of religion in my family I took the decision to open a guidance class (marriage class). Other than that I guide about religion, here we prioritize the comfortness of our participant. Thus we minimize the participants so that comfort can be felt through out the course. (Keluarga, Edisi Khas Perkahwinan, Ogos 1996, hlmn 75-76).

The main aim of the Islamic Board is to introduce the interview process to the future couples that are thinking of starting a family and to see how far the knowledge of Islam especially among the youngsters. Some of the questions that are asked include the Islamic rules, iman rules, and how to cleanse oneself before prayer. (Perlaksanaan dan Keberkesanan Kursus Perkahwinan 1994).
The latest speech from the Deputy Minister of the Prime Minister Board on the 28th January 1994 said that the Islamic Board will impose another rule before anyone wants to be married which is the couple has to complete reading the Quran. (Pelaksanaan dan Keberkesanan Kursus Perkahwinan, 1996).

**Marriage**

The meaning of marriage in Arabic is *az-zawāj* the combination or tie between two things that are different. Or in another Arabic verse *zaujun syaiun bil syaiun* (Umar bin Abdullah: 22)

According to Imam Syafie the marriage meaning is like *aqad* that is a guarantee bodily ownership with the speech made during *aqad or tazwij*. (Abd.Rahman Al-Jaziri: 1).

According to Imam Malik he says that the meaning of marriage is like the ownership that brings blessings to get friendliness between men and women. (Ibid.1).

Burdisi says in his books al-Ahkam al-Islamiyah fi Ahwali asy-syahsiah defines marriage as the *aqad* that gives profit to the men with the means of enjoyment (*Jima'*) that is allowed in Islam. (Al-Burdisi: 18).

Marriage can also be classified as *tajawwājun aqad an-nikah*. The meaning that means *aqad* it is like owning with enjoying everything as understood by the followers of Mazhab Hanbali. (Ibid.1).
2.2 Verses allows marriage

There were a lot of proof and evidence in Al-Quran and *Hadith* that encourage and to *syariat* a marriage. There was:

**Al-Quran**

1. Allah said:

وَأَنْكُحُوا الَّذِينَ مَنْكَمْ وَأَلْصَلِيحِينَ مِنْ عِبَادِكُمْ وَإِمَآ إِيَكُمْ إِنْ يُكُونُوا فَقْرًأً يَغْنِهِمْ اللَّهُ مِنْ فَضْلِهِ وَاللَّهُ وَاسِعٌ عَلِيمٌ

Marry those among you who are single and the virtuous ones among your slaves male or female if they are in poverty Allah will give them mean out of his grace. For Allah is Ample-giving and he knoweth all things. (An.Nur, 24:32)

2. In other evidence, Allah said:

وَإِنَّ خَفْشَمْ أَلَا تَقْسِمْوا فِي الْيَتَّمَّ مَنْ أَنْكُحُوا مَا طَابَ لَكُمْ مِنَ الْيَسِآءِ مَنْ تَلْبِئُ وَوَلَدُتْ وَرَبَّنَا فَإِنَّ خَفْشَمْ أَلَا تَغْلِبُوا فَوَاحَدًا أَوْ مَا مَلِكَتْ أَيْمَنَكُمْ ذَلِكَ أَدْنَى أَلَا تَغْلِبُوا

*If you fear that you shall not be able to deal justly with the orphans, marry women of your choice two or three or four but if you fear that you shall not be able to deal justly (with them) then only one, or that which your right hands posses. That will be more suitable to prevent you from doing injustice.* (An.Nisa’ 4:3)
3. Allah allows marriage so that human can get calm and peace.

وَمِنْ عَلَمِهِمْ أَنْ خَلَقَ لَكُمْ مِنْ أَنفُسِكُمْ زَوَّاجًا لِّيُشْكُبُوا إِلَيْهَا وَيَجْعَلَ

And among his signs is this that he created for you mates from among yourselves that we may dwell in tranquility with them and he has put love and mercy between your (hearts) verily in that are signs for those who reflect. (Ar.Rum, 21:21)

4. Marriage also can expand the bloodline of humankind. This is said from Allah:

بِذَاتِهِمَا أَلَّا تَفْتَنُوا بِرَبَّكُمْ الَّذِي خَلَقَكُمْ مِنْ نَفْسِكُمْ وَحَدَّى وَخَلَقَ مِنْهَا زَوَّاجًا بِمَثْنَائِي رَحِمَةٍ كَثِيرًا وَبَسَاء١

O Mankind! Fear your guardian lord who created you from a single person created out of it his mate and from them twain scattered (like seeds) countless men and woman fear Allah through whom ye demand your mutual (right) and be heedful of the wombs (that bore you) for Allah ever watches over you. (An: Nisa’, 4:1)
Dalil Hadith

1. In the hadith the verses allows marriage. As said by the prophet Muhamad SAW.

   *Marriage was my sunnah, anyone doesn’t like it, they are not in my group.*
   (Imam Abi Hamid Muhammad bin Muhammad, 1967:28)

2. Other hadith gives encouragement to marry so that it can protect your honour. As the Prophet S.A.W said:

   *Men and women, anyone between you was capable to marry, go on married because by married can you your eye and keep you in honour* (Bukhari &Muslim)

3. Islam dislikes men and women that do not fulfill the obligations to marry: As hadith said:

   *From Abu Hurairah R.A, Rasullullah S.A.W has said: Rasullullah S.A.W curse a bachelor from man who clearly said them will not marry and also a bachelor woman who said so.*
   (Ustaz Ishak Din & Prof Dr. Haron Din & Dato’ Abu Hassan Din Al-Hafiz, 1992:306)

Saving from number of scholars

All Muslim from Rasullullah periods until now has agreed to state that marriage was proper that is obligatory.

Al-Dahlawi said:

*Ranban nasran opinion that by not getting married they can get closer to Allah because marriage was not a holy action. That opinion was totally wrong because married was a sunnah and to follow our prophet Muhammad S.A.W.*
2.3 The marriage rules according to the Mazhab

When we talk of the rules of marriage, the four mazhab like the Syafie, Maliki, Hambali and Hanafi have given their difference of opinion.

Imam Maliki

In this matter Imam Maliki has divided the rules of marriage into four which is *fardh*, *haram*, *sunat* and *makruh*.

**FARDH**: This rule is set on a person who want to get married and afraid that he/she might fall into the adultery world if were not married. And if willing to be married then he/she must fast. (Hj. Osman Bin Jantan 1986:13)

In this condition if not willing to marry a free woman then allowed to marry with a slave. In this matter, Maliki puts 3 conditions:

* Afraid will occur adultery
* Unwilling to fast
* Unwilling to make a free woman his wife, then can marry with a slave that is freed.

**HARAM**: He will not perform adultery if not married. This rule goes to anyone who has the right to give financial obligations to the wife when married or physically weak.

**SUNNAH**: Getting married is sunat for men that want to marry and want to have a bloodline. In this case, the men have to fulfill his obligation with perfection. Every act that is done has to be for the sake of peace and happiness to the family will get good penalty from ALLAH Taala.

This is also another way of handling the social problems arising in the community, creating cooperation in the Islamic community and for the next generation that are religious.
Rasullullah S.A.W said:

عَنْ أَنْسِ رَضِيَ اللَّهُ عَنْهُ قَالَ: قَالَ النَّبِيُّ صَلَّى اللَّهُ عَلَيْهِ وَرَضَى عَنْهُ: النُّكَاحُ صَنَعِيْنَ فَمِنْ رَغَّبَ عَنْهُ صَنَعِيْنَ

From Anas RA said: The Prophet Muhammad S.A.W said that marriage is my sunnah, anyone who hates my sunnah then he is not from my people.

Marriage is like a form of responsibility, which is heavy on every individual. Every couple who has the desire to achieve happiness have to understand the true intentions of the marriage they built. Without the right intentions, a marriage can not be built and be ruled properly, and resulting in destruction.

This matter arises because through marriages, the human race will expand and the relationships will be formed between two families. The personality of chosen husbands and wives are set in Islam which states that we should chose wealth, family background, features and religion.

**MAKRUIH:** This rule states that if that person has no desire to marry and is unwilling to perform the responsibilities and providence.

**Imam Syafie**

The original marriage rule is compulsory. It is different because of several reasons.

**WAJIB:** The rule is for whoever desires to be married. This rule is also for those who want to avoid from doing a major sin. (Hj. Osman bin Jantan, 1989:24)
**SUNNAH:** For a person to marry due to their uncontrollable sex drive. But has the strength to avoid adultery. Getting married is better for the person.

(Aminah Hj.Tambon, 1989:367)

**MAKRÚH:** To whoever who has no desire to marriage and has no sexual drives and because of certain reasons like illness and unable to support needs.

**HARUS:** It is a need to feel the enjoyment of having a family, like a child.

**Imam Hanafi**

**FARDH:** Depending on certain situations like:

* To avoid adultery
* Unwilling to fast
* Unwilling to marry a free woman but can marry a slave
* If in full power and willing to give mahar nikah (the marriage money and the money with his own effort) (Abdul Rahman Al-Jaziri: 4)

**WAJIB:** For the *muallaf* who can support to financially give to the wife and is willing to be fair.

**MAKRÚH:** The person who feels that they can not be fair or will be cruel if married.

**HARAM:** Unable to give financial aid to the wife and afraid he will be cruel to his wife.

**SUNNAH:** Feeling unworried that cruelty will occur and will not be cruel to the wife.

**Imam Hambali**

**WAJIB:** Afraid of doing adultery even though just having doubts. If a person is unable to give financial aid but marry because he is following the above rules thus after marriage he should try get a job. (Abdul Rahman Al-Jaziri: 7)

**HARAM:** If married in an un-Islamic country unless in a crucial condition and should not be married if one is a prisoner.

**SUNNAH:** To those who want to marry it should not be because being afraid of doing adultery.
**HARUS:** To those who have the desire to marry like old, sexually unfit or sick with these conditions does not bring any reasons not to marry. If the marriage will lead to unhealthy things then is haram to marry.
